Notes to Contributors 1

PLANTS

Dragendorff-Positive Compounds in Some Mediterranean Red Algae
S. Sciuto, R. Chillemi, R. Morrone, A. Patti & M. Piattelli 5

Comparative Analysis of Repetitive DNA in Five *Arachis* Species
C. D. Atreya & N. C. Subrahmanyam 11

Food Selection by Elephants in the 'Miombo' Biome, in Relation to Leaf Chemistry
H. Jachmann 15

Isoenzyme Polymorphisms in *Gymnaedenia conopsea* and its Inferences for Systematics within this Species
R. Scacchi & G. De Angelis 25

Essential Oil Components as Markers for Identification of *Piper betle* L. Cultivars
A. K. S. Rawat, R. D. Tripathi, A. J. Khan & V. R. Balasubrahmanyam . . 35

Comparisons of Electrophoretic Seed Protein Profiles among North American Populations of *Zizania*
M. R. Duvall & D. D. Biesboer 39

A Method for Evolutionary Studies on RFLP of Chloroplast DNA, Applicable to a Range of Plant Species
J. M. Sandbrink, P. Vellekoop, R. Van Ham & J. Van Brederode 45

ANIMALS

Further Occurrence of Sulphated Carotenoids in *Ianthella* Species (Desmospongia)
S. Hertzberg, P. Bergquist & S. Liaaen-Jensen 51

Antifeeding Activity of Rotenone and Some Derivatives Towards Selected Insect Storage Pests
J. Nawrot, J. Harmatha, I. Kostova & I. Ognyanov 55

Variations de la Teneur en Acides Aminés Libres et de l'Excrétion Ammoniacale chez les Post-Larves de *Penaeus japonicus* en Fonction de la Salinité et des Chocs Osmotiques
C. Marangos, A. Guissi et H. J. Ceccaldi 59

Lactate Dehydrogenase Isozymes in Fifty-two Species of Teleostean Fishes: Taxonomic Significance of Ldh-C Gene Expression
M. R. K. Rao, B. K. Padhi & A. R. Khuda-Bukhsh 69

DNA Analysis of Galliformes Species: New Aspects for Phylogenetic Relationships
E. Randi, U. Csaikl & F. Csaikl 77

Chemical Constituents of the Anal Sacs of Domestic Dogs
S. Natynczuk, J. W. S. Bradshaw & D. W. MacDonald 83

number 2

SPECIAL ISSUE

CHEMOSYSTEMATICS OF THE PTERIDOPHYTES

Introduction
P. Mick Richardson 89
Chemosystematics of the Pteridophytes—A Summary
Gillian A. Cooper-Driver 91
Chloroplast DNA Evolution and Phylogeny of some Polystichoid Ferns
Diana B. Stein, George Yatskievych & Gerald J. Gastony 93
Immunological Comparisons of Spore Storage Proteins: The Use of Affinity-Purified Antibodies and Western-blotting in Probing the Relationships of Higher Taxa of Ferns
David S. Conant & A. E. DeMaggio 103
Towards a Synthesis of Evolutionary Modes and Mechanisms in Homosporous Pteridophytes
Christopher H. Haufler 109
The Use of Isozyme Data for Inferring Ancestry of Polyploid Pteridophytes
Charles R. Werth 117
Chemosystematics of Di- and Sesquiterpenoids in Polypodiaceous Ferns
T. Murakami & Y. Saiki 131
Exudate Flavonoids in Ferns and their Chemosystematic Implication
Eckhard Wollenweber 141
Chemosystematic Implications of Flavonoids and *C*-Glycosylxanthones in 'Ferns'
James W. Wallace 145
Flavonoids of the 'Fern Allies'
P. Mick Richardson 155
Flavonol Glycosides from Ferns of the Genera *Asplenium* and *Cheilanthes*
F. Imperato 161
Chemosystematics of Indian *Ophioglossum* L.
Sharda Khandelwal 167

number 3

PLANTS

Caffeic Acid Esters as *In Vitro* Inhibitors of Plant Pathogenic Bacteria and Fungi
Helle Ravn, Claude Andary, Georg Kovács & Per Mølgaard 175
The Systematic Value of the Monosaccharide Composition and Distribution Pattern of Cycad Mucilages
D. W. Stevenson & G. Siniscalco Gigliano 185

CONTENTS

Leaf Flavonoids of *Cyperus* Species in Egypt
I. El-Habashy, R. M. A. Mansour, M. A. Zahran, M. N. El-Hadidi & N. A. M. Saleh 191
The Major Flavonoids in the Leaves of *Milium effusum* L.
Ruth J. Moulton & Stephen J. Whittle 197
Variation in Leaf Protein Contents and Amino Acid Compositions of Cassava Cultivars
Hock-Hin Yeoh & Kalanethee Paul 199
A Novel Mechanism for Detoxification of L-Canaline
Gerald A. Rosenthal, Milan A. Berge & John A. Bleiler 203
A Further Investigation of Leaf Sesquiterpene Variation in Relation to Herbivory in Two Brazilian Populations of *Copaifera langsdorfii*
Cynthia A. Macedo & Jean H. Langenheim 207
Microlepidopteran Herbivory in Relation to Leaf Sesquiterpenes in *Copaifera langsdorfii* Adult Trees and their Seedling Progeny in a Brazilian Woodland
Cynthia A. Macedo & Jean H. Langenheim 217
Chemotaxonomic Significance of Alkaloids in the Genus *Lebeckia*
Ben-Erik Van Wyk & Gerhard H. Verdoorn 225
Distribution and Taxonomic Significance of Major Alkaloids in the Genus *Virgilia*
Roland Greinwald, Gerhard Veen, Ben-Erik Van Wyk, Ludger Witte & Franz-C. Czygan 231
Individual Variation in the Flavonoid Aglycones Excreted on the Leaves of *Alnus glutinosa* (Betulaceae)—I
J.-F. Gonnet & C. Daniere 239

ANIMALS

Immunochemical Comparisons of Haemocyanins of Australasian Freshwater Crayfish: Phylogenetic Implications
A. Patak, J. Baldwin & P. S. Lake 249
Electrophoretic Lactate and Malate Dehydrogenases Polymorphism in Populations of the Threespine (*Gasterosteus aculeatus*) and the Ninespine (*Pungitius pungitius*) Sticklebacks from the Vistula River and the Gdánsk Gulf
Marek S. Ziętara 253

BOOK REVIEWS

Plantwatching: How Plants Remember, Tell Time, Form Partnerships and More: M. Wilkins
(Reviewed by Peter G. Waterman) 261
Chemotaxonomie der Pflanzen: R. Hegnauer
(Reviewed by Peter G. Waterman) 261

number 4

PLANTS

Primary and Secondary Carotenoids in Two Races of the Green Alga *Botryococcus braunii*
Merete Grung, Pierre Metzger & Synnøve Liaaen-Jensen 263
Monoterpenoid Differentiation in Relation to the Morphology of *Pinus edulis*
Eugene Zavarin, Karel Snajberk & Laurence Cool 271
Tetraploidy and Habitat Differentiation Reflected by Flavonoid Patterns in *Dactylis glomerata* from Galicia (Spain)
M. Jay, J. L. Fiasson, R. Lumaret & P. Ardouin 283
Chemotaxonomy of Seed Lipids of Cucurbitaceae Grown in Argentina
Marta E. Carreras, Elsa Fuentes & Carlos A. Guzman 287
A First Study of Antibacterial Activity of Diterpenes Isolated from some *Salvia* Species (Lamiaceae)
Antonio G. González, Teresa Abad, Ignacio A. Jiménez, Angel G. Ravelo, Javier G. Luis, Zahira Aguiar, Lucia San Andrés, Mercedes Plasencia, J. Ramon Herrera & Laila Moujir 293
The Taxonomic Significance of Cyanogenesis in *Lotononis* and Related Genera
Ben-Erik van Wyk 297
A Laser Immuno-Nephelemetric Antigen–Antibody Precipitation Analysis of *Lathyrus* Lectins in Relation to their Phenetic Relatedness
Pierre Rouge, Marie-Line Garcia & Jacques Lauga 305
Luteolin Glycosides as Taxonomic Markers in *Ferula* and Related Genera
X. Y. Chen & Q. X. Liu 309

ANIMALS

The Fatty Acid 4,8,12-Trimethyltridecanoic as a Common Constituent of the Phospholipids of the Sponge Families Spirastrellidae and Clionidae
Néstor M. Carballeira, Maria E. Maldonado, Edgardo Rivera & Beatriz Porras 311
On the Sterol Composition of the Marine Sponge *Verongula gigantea*. A Comparative Study of the Verongidae—II
Néstor M. Carballeira & Fathi Shalabi 315
Influence of Water Temperature on Carotenoids and Carotenoid Metabolism in *Palaemon serratus* (Pennant) (Crustacea: Decapoda)
Michel Vincent 319
Electrophoretic Studies on Male Haemolymph in Two Groups of Heteroptera: Chemical Characterization of Plasma Proteins
P. R. Yadav & Dinesh Kumar 323
Intraspecific Variation in the Defence Secretions of *Nasutitermes ephratae* Soldiers and the Biological Activity of some of their Components
Irena Valterová, Jan Křeček & Jan Vrkoč 327
Associations Between Genetic Heterozygosity and Morphological Variability in Freshwater Sculpins, Genus *Cottus* (Teleostei: Cottidae)
Richard E. Strauss 333

Morphological Variance and Enzyme Heterozygosity in *Eleutheronema tetradactylum* and *Strongylura strongylura* Collected from Khor al-Zubair Area, Basrah, Iraq
Sabah D. Saleem, Laith A. J. Al-Hassan & Melkon K. Melkonian . . 341
Biochemical Systematics of Elephant Shrews from Southern Africa
Deanna K. Tolliver, Lynn W. Robbins, I. L. Rautenbach, Duane A. Schlitter & C. G. Coetzee 345

BOOK REVIEWS
Catalysis of Oxygenation in Life and in Chemistry: Proceedings of a Symposium held in Japan in July 1987
(Reviewed by Carol Deby) 357
The Nitrogen and Sulphur Cycles
(Reviewed by J. Coyette) 358

number 5

PLANTS

Screening of Urease Production and Secretion by Seven Species of Finnish Lichens
Elena Perez-Urria, C. Vicente & L. Xavier Filho 359
Biflavones of Taxodiaceae
P. A. Gadek & C. J. Quinn 365
Chemotaxonomic Study of Two Cultivars of *Artemisia dracunculus* L.: (''French'' and ''Russian'' Tarragon)
Monique Vienne, Richard Braemer, Michel Paris & Henri Couderc 373
Glucosinolates in Bretschneideraceae
D. E. Boufford, A. Kjær, J. Øgaard Madsen & T. Skrydstrup 375
Epicuticular Wax Hydrocarbons of Ericaceae in British Columbia
Inno Salasoo 381
A Chemotaxonomic Survey of Major Alkaloids in *Lotononis* and *Buchenroedera*
Ben-Erik van Wyk & Gerhard H. Verdoorn 385
Chemotaxonomic Significance of Alkaloids in the Genus *Pearsonia*
Ben-Erik van Wyk & Gerhard H. Verdoorn 391
The Occurrence of Glyceollins in Plants Related to *Glycine max* (L.) Merr.
N. T. Keen, J. L. Ingham, T. Hymowitz, J. J. Sims & S. Midland 395
Flavonoids in some Monotropoideae
Bruce A. Bohm & John E. Averett 399
Field Screening for Allelopathy in Tropical Forest Trees, Particularly *Duroia hirsuta,* in the Brazilian Amazon
David G. Campbell, P. Mick Richardson & Arito Rosas Jr 403

ANIMALS

Total Protein Analysis in Rotifer Populations
María José Carmona, Manuel Serra & María Rosa Miracle 409

2,13- and 3,13-Octadecadienyl Compounds Composing Sex Attractants for Tineid and Sesiid Moths (Lepidoptera)
G. Szöcs, M. Tóth, Gy. Sziráki & M. Schwarz 417
Biochemical Systematics of Four Sea-urchin Species of the Family Diadematidae from Japanese Waters
Norimasa Matsuoka 423
Lipids in the Paracloacal Gland Secretions of Dwarf (*Paleosuchus palpebrosus*) and Smooth-fronted (*P. trigonatus*) Caimans
Abdul Shafagati, Paul J. Weldon & James W. Wheeler 431

BOOK REVIEWS

Horizons of Biochemical Engineering
(Reviewed by Jean-Marie Frere) 437
Studies in Natural Products Chemistry, Volume 1, Stereoselective Synthesis (Part A)
(Reviewed by L. Angenot) 437

number 6

PLANTS

Polyols of the Fungus, *Zoophagus insidians*
Hidayatullah Abro, Huw A. M. Crowther, Christopher J. Lawson & Michael W. Dick 439
Taxonomic Variation in Flavonoids in the *Oryza latifolia* Complex
Ch. Boyet & M. Jay 443
C*-Glucosylflavones in the Genus *Ornithogalum
Omar Azzioui, Richard L. Braemer & Michel Paris 449
Flavonoids of the Annual *Stephanomeria* (Asteraceae)
B. A. Bohm & L. D. Gottlieb 451
Foliar Flavonoid Aglycones of the Genus *Keckiella* (Scrophulariaceae)
Orlando Mistretta & Ron Scogin 455

ANIMALS

Source of a Nauseating Stench from the Marine Sponge, *Halichondria panicea,* Collected at Clever Bank in the North Sea
Carsten Christophersen, Uffe Anthoni, Per Halfdan Nielsen, Niels Jacobsen & Ole Secher Tendal 459
Genetic Variability of the Lucinidae: *Loripes lucinalis, Lucinella divaricata* and *Lucinoma borealis* minor (Mollusca: Bivalvia) from Brittany, France
Sigit A. P. Dwiono, Dario Moraga, Marcel Le Pennec & Jean-Yves Monnat 463
The Dufour Gland Contents of Three Species of Euro-African *Messor* Ants and a Comparison with those of North American *Pogonomyrmex* (Hymenoptera: Formicidae)
Mahmoud Fadl Ali, Johan P. J. Billen, Brian D. Jackson & E. David Morgan 469

Species-specificity of Electrophoretic Patterns of Haemoglobin and Uniformity of Karyotypes in Fishes, Genus *Abramis* (Pisces: Cyprinidae)
V. A. Arefjev & G. I. Karnauchov 479
Evidence for Tandem Duplication of a Glucosephosphate Isomerase Locus in *Sciaenops ocellatus*
James S. Rogers & James M. Grady 489
Choice of Mixed Diets by Herbivores: the Idiosyncratic Effects of Plant Secondary Compounds
W. J. Freeland & Lisa R. Saladin 493

BOOK REVIEWS

Eukaryote Cell Recognition. Concepts and Model Systems
(Reviewed by H. Firket) 499
Microbial Ecology: Organisms, Habitats, Activities
(Reviewed by J. Remacle) 499
Concepts of Ecosystem Ecology: A Comparative View
(Reviewed by Ch. Jeuniaux) 500
Immunological Techniques in Insect Biology
(Reviewed by Bernard Rentier) 501

number 7/8

PLANTS

Glutamine Synthetase of *Dunaliella primolecta*. Partial Characterization and Possible Adenylation Control in Relation to Nitrogen Nutrient Levels
Catherine Seguineau, Yves Batrel & Yves Le Gal 503
Microsampling: An Alternative Approach Using Sesquiterpene Lactones for Systematics
Otmar Spring 509
Chemosystematic Investigation of the Annual Species of *Helianthus* (Asteraceae)
Otmar Spring & Edward E. Schilling 519
Genetic and Environmental Contributions to Variation in Leaf Mono- and Sesquiterpenes of *Heterotheca subaxillaris*
Charles A. Mihaliak, Denis Couvet & David E. Lincoln 529
External Flavonoid Aglycones of *Viguiera* series *Viguiera* (Asteraceae: Heliantheae)
Edward E. Schilling 535
Chloroplast DNA Variation in *Silene* section *Elisanthe* Demonstrates *Silene noctiflora* L. is not Properly Classified
J. M. Sandbrink, L. J. N. M. Geurts, T. W. J. Gadella & J. Van Brederode . . 539
Intra- and Interplant Leaf Sesquiterpene Variability in *Copaifera, langsdorfii*: Relation to Microlepidopteran Herbivory
Cynthia A. Macedo & Jean H. Langenheim 551
Oligosaccharides in Five Different *Vicia faba* L. Cultivars
Antonio Dini, Francesco De Simone, Eliseo Ramundo & Felice Senatore . . 559

Geographical Variation in the Monoterpenes of *Valeriana officinalis* Leaf
L. Coassini Lokar & M. Moneghini 563
Iridoids of *Cruckshanksia verticillata* and their Chemosystematic Importance
Marcello Nicoletti, Lamberto Tomassini, Juan A. Garbarino, Marisa Piovano & Maria C. Chamy 569
Two-Dimensional Gel Electrophoresis as a Taxonomic Tool: Evidence from the Centrospermae
Stephen M. Beckstrom-Sternberg 573

ANIMALS

Lipid Composition and Storage in the Tissues of the Bivalve, *Macoma balthica*
R. Wenne & L. Polak 583
The Influence of Water Salinity on the Free Amino Acid Concentration in Muscle and Hepatopancreas of Adult Shrimps, *Panaeus japonicus*
Christakis Marangos, Carl-Henrik Brogren, Elisabeth Alliot & Hubert-Jean Ceccaldi 589
A Biochemical Approach Toward the Systematics of the *Leptothorax "muscorum"* Group in North America (Hymenoptera: Formicidae)
Jürgen Heinze 595
Nouvelles données sur les Estérases des Trichogrammes (Hym. Trichogrammatidae)
Bernard Pintureau et Fodé Balato Keita 603
Erythrocyte Glutathione in Goats
María Jesús Tuñón, Paquita González & Miguel Vallejo 609

BOOK REVIEWS

Nitrogen Fixation: A Hundred Years after. Proceedings of the 7th International Congress on N≡N Fixation
(Reviewed by J. Aghion) 611
Studies in Natural Products Chemistry, Volume 2, Structure Elucidation (Part A)
(Reviewed by Luc Angenot) 611
